## Multi-Port, 10/100 Mbps Switching Standalone Media Converter

AccessConverter

Terminating a fiber run while using various local, copper-based devices such as PCs, printers, VoIP, etc. is essential for the success of Fiber-to-the Business, Curb and other FTTx projects. Remote locations have similar configuration demands. Connecting the multiple copper devices to the fiber, however, typically requires the use of both a media converter and a switch - two pieces of equipment to purchase and two pieces of equipment to monitor and maintain. The AccessConverter streamlines FTTx projects as well as the connection of remote locations as a multi-port, switching media converter.

Best of all, one compact AccessConverter module reduces the amount of required equipment while providing all the features of a switch (store and forward switching mechanics, MAC address learning, protection against broadcast storms, flow control, etc.) and performing the electrical-to-optical conversion. In addition, the unit's small size and wall-mount bracket (included) allow you to install AccessConverter virtually anywhere, including inside a network interface device (NID).

Requiring no configuration, the AccessConverter offers plug-andplay operation:

- Each copper port auto-senses the connected device's speed and duplex mode ( 10 Mbps or 100 Mbps and HDX or FDX) and includes AutoCross, a feature which automatically selects between a crossover workstation (MDIX) or pass-through (MDI) connection depending on the connected device
- The fiber port always operates at 100 Mbps FDX, and supports distances up to 80 km ; single-strand fiber versions are available.

## PRODUCT FEATURES

- Low cost, high flexibility - same small unit performs media conversion and switching functions
- Offers three downlink connections
- Compact size allows for flexible installation configurations
- Unmanaged

ORDERING INFORMATION

| MODEL NUMBER | FIBER | FIBER PORTS | RANGE | ETHERNET PORTS | ETHERNET CONNECTOR |
| :---: | :---: | :---: | :---: | :---: | :---: |

| 852-10156 | SSFX-SM1550/ PLUS-SC | 1 | 40 km | 3 | RJ45 |
| 852-10157 | SSFX-SM1310/ LONG-SC | 1 | 60 km | 3 | RJ45 |
| 852-10158 | SSFX-SM1550/ LONG-SC | 1 | 60 km | 3 | RJ45 |

* These products have single-strand fiber technology. Deploy in pairs or connect another compatible B\&B IMC LLC single-strand fiber product.

## Multi-Port, 10/100 Mbps Switching Standalone Media Converter

## SPECIFICATIONS

## TECHNICAL

Auto Negotiation of speed and duplex (HDX/FDX) on copper ports
Layer 2 packet switching, store and forward operation
Forwarding rate: 14,881pps for 10 Mbps ; 148,810pps for 100 Mbps
1024 MAC address learning
MTU: Supports over-sized packets up to 1536 bytes
Full wire speed on all ports
Broadcast storm protection
AutoCross for MDI/MDIX
LinkLoss and FiberAlert
Auto Negotiation
Diagnostic LEDs
$50 / 125 \mu \mathrm{~m}$ or $62.5 / 125 \mu \mathrm{~m}$ multi-mode fiber
$9 / 125 \mu \mathrm{~m}$ single-mode fiber
Single-strand fiber
All copper version also available (TX/3 + TX)
IEEE 802.3 10Base-T
IEEE 802.3u 100Base-TX
IEEE 802.3u 100Base-FX
IEEE 802.3x Flow Control

## CONNECTORS

RJ45, ST, SC and MT-RJ
Supports Half- and Full-Duplex operation
